

Breast Lift Surgery in Melbourne

Canonical: <https://directory.meclinic.com.au/healthcare-medical-services/cosmetic-surgery-procedures/breast-lift-surgery-in-melbourne/>

Description:

A breast lift (mastopexy) is a cosmetic surgical procedure that lifts and repositions sagging breasts and nipples. This procedure removes excess skin, enhances breast contour, improves symmetry, and restores a more youthful appearance. Ideal for addressing changes from aging, weight fluctuations, pregnancy, and breastfeeding. Me Clinic offers expert breast lift surgery in Melbourne with experienced plastic surgeons.
