

Breast Lift Surgery in Melbourne

Canonical:

<https://directory.meclinic.com.au/healthcare-medical-services/cosmetic-surgery/breast-lift-surgery-in-melbourne/>

Description:

A Breast lift (Mastopexy) aims to lift breasts and reposition nipples that have changed from factors of age, weight change or breastfeeding. Our plastic surgeons perform this cosmetic procedure to remove excess skin, enhance contour, and restore a more youthful appearance. Ideal for correcting ptosis (sagging) in breasts and improving breast symmetry.
