

Breast Reduction Surgery - Melbourne

Canonical: <https://directory.meclinic.com.au/healthcare-medical-services/cosmetic-surgical-procedures/breast-reduction-surgery-melbourne/>

Description:

Breast reduction surgery (reduction mammoplasty) aims to reduce breast size to rectify proportion and alleviate pain and discomfort associated with large breasts. Me Clinic offers comprehensive breast reduction procedures performed by experienced specialist plastic surgeons with over 35 years of cosmetic surgery experience. The procedure addresses physical symptoms such as back pain, shoulder pain, and neck pain while improving mobility and comfort.
