

Chin and Neck Liposuction - Focused Fat Reduction Surgery

Canonical: <https://directory.meclinic.com.au/healthcare-medical-services/cosmetic-surgical-procedures/chin-and-neck-liposuction-focused-fat-reduction-surgery/>

Description:

Chin and neck liposuction is a surgical procedure that can help reduce excess fat and redefine the jawline. Me Clinic Melbourne's experienced plastic surgeons use advanced liposuction techniques to address stubborn fat deposits in the chin and neck area. The procedure involves making discreet small incisions under the neck and ears to gently extract submental fat through suction, creating a more slender chin and neck line. Learn about candidacy, recovery, and personalized treatment options through a consultation with our specialists.
