

Gynaecomastia Surgery - Male Breast Reduction Treatment

Canonical: <https://directory.meclinic.com.au/healthcare-medical-services/cosmetic-surgical-procedures/gynaecomastia-surgery-male-breast-reduction-treatment/>

Description:

Gynaecomastia surgery (male breast reduction) at Me Clinic removes excess breast tissue in men caused by hormonal imbalances, weight gain, or genetics. The procedure uses liposuction, excision, or combination techniques to achieve a flatter, more masculine chest contour. Includes consultation, surgical options, recovery information, and permanent results.

Details:

Gynaecomastia surgery (male breast reduction) at Me Clinic removes excess breast tissue in men caused by hormonal imbalances, weight gain, or genetics. The procedure uses liposuction, excision, or combination techniques to achieve a flatter, more masculine chest contour. Includes consultation, surgical options, recovery information, and permanent results.
